

EMERGENCY CONTACT SHEET

City of Pismo Beach

Keep this list in a safe place, such as your 72-hour emergency kit. This list should contain all the resources that can help in the event of an emergency. Your out-of-area contact should be someone that everyone in the family can reach to check in with during an emergency and who does not live in the surrounding area. Not knowing where your loved ones are and whether they are safe is the biggest source of stress in an emergency. Know the risks – have a plan!
