All fees are applicable to all new development, redevelopment (intensification of land-use), and additions to existing buildings that create additional dwelling units or additional non-residential floor area.

1 Parks-Land Acquisition: This fee is charged under the Quimby Act for development occurring in subdivisions or charged under the Mitigation Fee Act for development not occurring in subdivisions. A residential project either pays the fee under the Quimby Act, or the Mitigation Fee Act, not both.
Assumes the average Residential-Single Family Unit is 2,589 sq.ft, Multi-Family Unit is 1,100 sq. ft, and Mobile Home is 1,440 sq.ft.

2 For Self Storage, any housing units in the facility are charged at the residential rate corresponding with the type of dwelling unit being built (single family or multifamily).

3 For ADUs, impact fees are consistent with State Law and City of Pismo Beach Ordinances 0-2020-006 and 0-2020-007. There shall be no impact fees or public facility fees assessed for a permit to construct an ADU where the new floor area is less than 750 square feet. Where the new floor area is 750 square feet or greater, impact fees shall be equal to the square footage of the ADU multiplied by the Single Family Residential square foot fee.

4 In the event that the Public Works Director or his/her designee determine that the private project proposal will have water demands or use that will be 15% or more beyond the application of water demand in gallons per day identified in the above Development Impact Fee(DIF) Schedule for "normal water flow", the City shall impose the larger of either the above DIF Schedule (Normal Fee Schedule) or Table A (Alternate Fee Schedule).

For development with larger water meter sizes, refer to the following Table A.

Table A: Alternate Recycled Water (Water & Wastewater) Development Impact Fee Schedule for Larger Water Meter Sizes with 15% or More Water Flow beyond "Normal" at the discretion of the Public Works Director/City Engineer

Impact fee is calculated by multiplying the cost per 1" meter by the Water Demand Factor for a given water meter size.

All Development Impact Fees (DIFs) adopted per Resolution R-2025-007, the amounts of the DIFs will automatically be adjusted effective January 1 of
each year (starting with January 1, 2026) by the following:

- For State Water Supply costs, the cost per acre-foot per year (AFY) shall include a 5.0% increase to reflect the State Water Supply costs associated with the Central Coast Water Authorities' Series 2016A refunding revenue bonds with an interest rate of 5.0%
- For all other categories, percent change over 12 months in California Department of General Services California Construction Cost Index (CCCI), for the twelve months ended in October prior to January 1
- For all non-residential land-use categories' DIFs, add a 5% increase up to 25%, not compounding, beginning in January 2026, with the last
